

**27/2/09 Yorkshire League Division 3  
Garforth 58 vs Old Otliensiens 21**

Garforth may have taken their first steps towards turning their fortunes around with an emphatic victory over Old Otliensiens.

The visitors were missing several players due to injury but the mighty 'forth were also without captain Adam Brown and talismanic number eight James Baldwin, this however, did not hinder the performance as some free flowing rugby in the backline on the back of a dominant display by the forwards ensured victory.

Ian Hayes moved from blind side flanker to loose forward to produce a man of the match performance and the new combination of Alex Gomerson, Chris Brown and Des Claxton at ten, twelve and thirteen respectively brought a great mixture of flair and power.

A near spotless kicking game from Gomerson capped off this display. Next up are Baildon at home and if the forwards can match this performance in the set piece and general play then Garforth have to be confident going into the tie.
